REAL-WORLD EXPERIMENT

LogicFly

I'm about to get off work. You need to help me do a few things: See if my water bottle is under the pool table in the recreation room. Whether the toolbox is back on the top shelf in the storage room. If the corn in the tea room microwave is done heating. Check whether my laptop is on the table in the hall. If it's not there, help me look for it.

Initial Instruction Parsing

Bottle → Toolbox → Microwave → Laptop

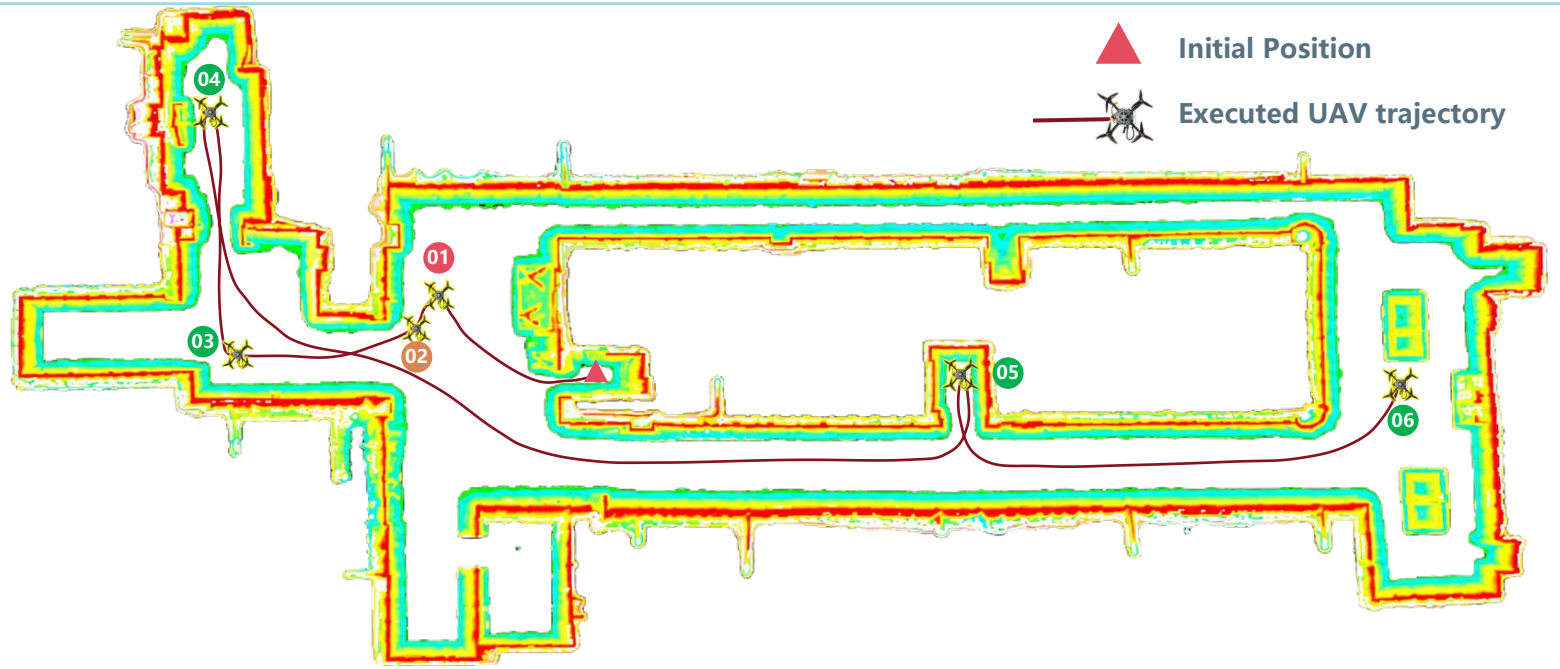

Map Anchor Association

Bottle	Toolbox	Microwave	Laptop
Recreation room	Storage room	Tea room	Hall

Task Order after Reasoning and Planning

CPTG&JTVP

Hall → Storage room → Tea room → Recreation room
